

# Victorians Will Carry Australia's ETS Burden

## What the Federal Government isn't telling you...

The Carbon Pollution Reduction Scheme as proposed will bring down the electricity sector in Victoria and Victorian families and businesses will pay the price. We have explained these consequences to both the Federal Government and the Opposition for two years.

TRUenergy supports a responsible ETS, however...

**Whichever way you cut it, the ETS in its current form is a disaster for all Victorians.**

TRUenergy is one of the largest investors in new gas-fired generation, wind energy, geothermal energy and solar development.
